

SIHLE LETA

BCom Information Systems Graduate | Full Stack Developer/Project Manager

East London, Eastern Cape | +27 72 265 4211 | sihleleta18@gmail.com | [LinkedIn](#) | [GitHub](#)

EXPERIENCE

Full Stack Developer | Project Manager | Appimate

- Delivered full-stack features across multiple client projects, building and integrating APIs and database-backed systems for production use.

Tutor - Essentials of IT (IFS123E) | University of Fort Hare

- Facilitated sessions on systems analysis and design, BPM/workflow modelling and core IT infrastructure, guiding students in translating business requirements into structured system solutions.

Tutor - Fundamentals of Information Systems (IFS121E) | University of Fort Hare

- Delivered tutorials on SDLC, database design (ERD, keys, cardinality) and Excel-based data analysis (VLOOKUP, conditional logic), bridging core IS concepts with practical application.

SELECTED PROJECTS

[Appimate Business | AI-Powered Business Intelligence Platform](#)

- Contributed towards a business intelligence platform for modern businesses with invoice, quote, payroll, reporting and analytics workflows.

Appimate API Server | Backend Infrastructure for Appimate Business

Node.js v24+ | TypeScript | Express.js | Socket.io | MySQL | Redis

- Built the backend and API layer for the Appimate ecosystem, supporting the business platform with production infrastructure.

[AI SMME App | AI-Powered Funding Application Platform](#)

- Built an AI-powered funding application platform that helps entrepreneurs through voice-to-text and guided workflows which matches applicants with relevant funding opportunities

[Citizen TV | Content Platform](#)

- Built a public-facing media platform with home, weather and alerts, explore, saved items, category browsing and upload flows.
